Complaint was made to the Selectmen by workmen on this account that they were not being paid for their labor. Investigation was immediately made and it was found that orders had been drawn amounting to $102.50 to cover payrolls for which only a small amount of work had been done. This money was returned to the Treasurer. It was further found that the amount of $129.00 had been drawn and not paid to the work-

men. The Selectmen paid the amounts due for labor. The Agent and his bondsmen paid this to the Selectmen who returned it to its Treasurer. The town did not lose by the shortage.

# REPORT OF HEADMASTER OF NUTE HIGH SCHOOL

*To the Superintendent of Schools and the Members of the Board of Trustees:*

The forty-third year of this institution opened September 5 with an enrollement of eighty-three pupils. Transfers to other schools and withdrawals reduced the registration until at present there are 78 pupils divided as follows: Seniors, 11; Juniors, 18; Sophomores, 25; Freshmen, 24.

Reports from the State Board of Education show an increased rating by the Commissioner on the scholastic standard of the school over that of any previous year.

The following were especially commendable by Commissioner Pringle:

1. Exceeding the collateral reading in Latin I and II.
2. Very generous amount of supplementary reading performed in United States History and Economics.
3. Performance of 50 experiments and 60 demonstrations in Physics.
4. School above State Median in substraction.
5. School above State Median in English forms.
6. School above State Median in addition.

The annual school inspection as registered by Deputy Russell Leavitt resulted in the following report being sent to Superintendent F. W. Dudley:

1. Condition of the building: Excellent.
2. Deportment of pupils: Excellent: Very Polite.
3. The fine tardiness record is commendable.
4. The fine attitude of the pupils towards their teachers and studies is highly commendable.

The Otis and Henmon-Nelson Group Intelligence tests have been given to show individual differences of abilities and general knowledge.

Again realizing the value of visual education, field trips have or will be made by various classes. The Physics class attending the launching of the U. S. Cachalot at Portsmouth and the Senior Government will visit the State Legislature, Federal Court, States Prison and other State Institutions. The Commercial department visits a modern office and sees up-to-date equipment used while the Physiography class enjoys field trips in and about Milton observing the makeup of soil, rocks and country in general.

Athletics have been self-supporting and furnished a surplus for purchasing a Ditto Duplicating machine for the Commercial department.

The school has been the recipient of a complete set of bound Congressional Reports of the 72nd. Congress from Congressman Wm. Rogers. These are used as reference in American Government.

Several outstanding booklets, papers and projects of work have been completed. A reproduction of a Medieval Castle is exhibited by Costandino DiPrizio, who is completing his four years of prescribed study in three years and doing so with honors.

Despite the stormy weather the attendance has been excellent and to date but four tardy marks are charged against the school which is even better than the splendid record of last year.

The excellent condition of the school property is due in a large measure to the untiring efforts of Caretaker Tetherly, whose personal interest is highly commendable.

Respectfully submitted,

PHILIP R. BURLINGAME,
Headmaster.

February 28, 1934.

During the fall months milk was furnished the Milton Grammar School by the Trickey Farm for which we are very grateful. At present fifteen children are having milk furnished by the State.

I wish to express my appreciation to the teachers for their splendid cooperation.

Respectfully submitted,

J. R. THOMPSON, R. N.
